

Ergonomic Grooming Stool

Assembly Instructions

Parts List:

- A** Casters (5)
- B** Five-Legged Base (1)
- C** Footrest (1) (Model TP23714 only)
- D** Gas Lift Mechanism (1)
- E** Telescope Cover (3 pieces)
- K** Metal Seat Mechanism (1)
- F** Seat Cushion (1)
- G** Hex Bolts (4)
- H** Spring Washers (4)
- I** Flat Washers (4)
- J** Hex (Allen) Wrench (1)

Assembly Instructions:

1. Insert all five casters into base.
2. Place footrest over center of base. Press firmly into place.
*Note: Footrest is intended to rest on base. Sliding the footrest upwards will cause it to become unstable.
For model without footrest, skip to step 3.
3. Place gas lift mechanism into center of base. Feed plastic telescoping pieces over gas lift mechanism.
4. Using hex bolts, flat washers and spring washers, attach metal seat mechanism to underside of cushion so that "FRONT" stickers are aligned. Tighten with hex wrench.
5. Place assembled cushion on top of gas lift mechanism. Press firmly into place.
