- (H) Hooks (2)
- (I) Set Screw for Hooks (4)
- (J) Expansion Tubs (4)
- (K) Set Screw for Support Bracket (2), adhesive tape
- (L) Hose to Water Source/faucet outlet pipe
- (M) Metering Tips: 0.7mm (4), 0.5mm (8), 0.3mm (8)

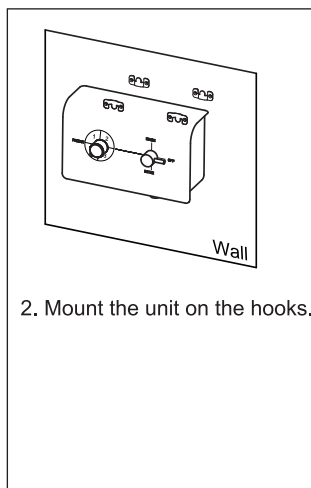

CAUTION:

1. The water pressure of ProBather Bathing System is dependent on your existing water pressure.
2. The unit is not suitable for any shampoo or conditioner whose viscosity is above 15000 mPa·s.
3. Do not place the unit in any location where it can be touched by any animals.
4. Check all hoses and joints regularly. Be sure there are no leaks.
5. If shampoo or conditioner has congealed in the unit, please clean as soon as possible.

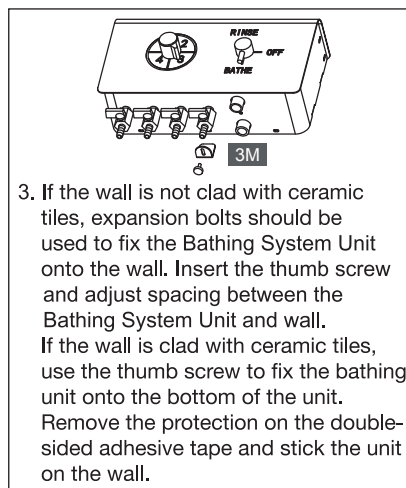

Installation Instructions:

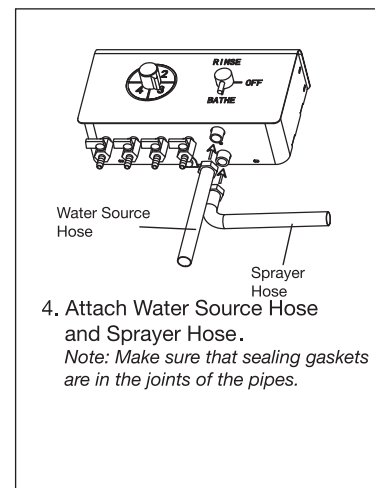

1. Put the drilling template on the wall, align and drill four holes in the wall. Use expansion screws to mount the hooks on the wall.

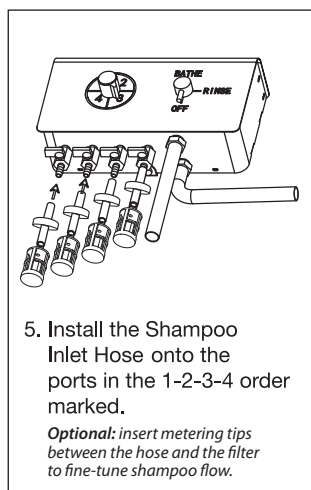

2. Mount the unit on the hooks.

3. If the wall is not clad with ceramic tiles, expansion bolts should be used to fix the Bathing System Unit onto the wall. Insert the thumb screw and adjust spacing between the Bathing System Unit and wall. If the wall is clad with ceramic tiles, use the thumb screw to fix the bathing unit onto the bottom of the unit. Remove the protection on the double-sided adhesive tape and stick the unit on the wall.

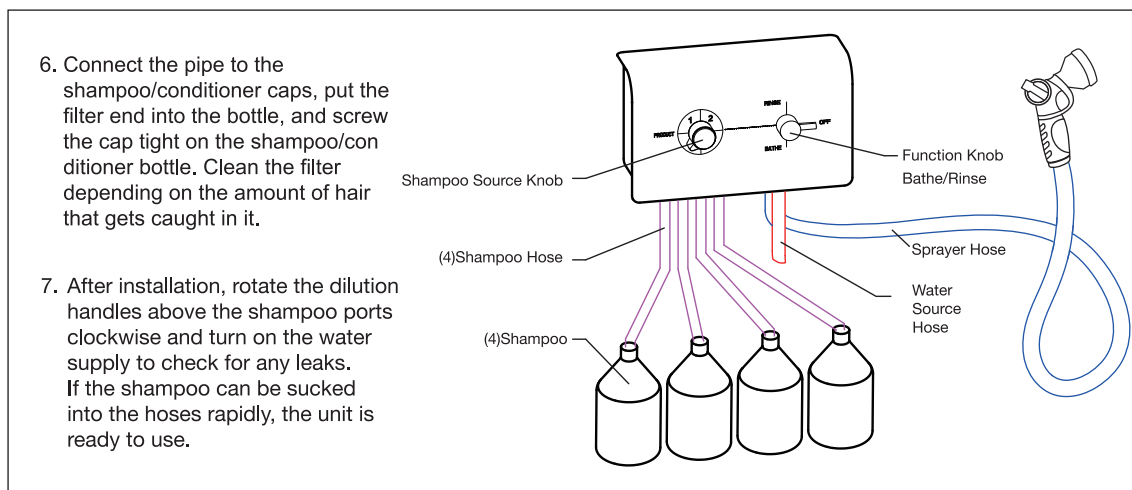

4. Attach Water Source Hose and Sprayer Hose.
Note: Make sure that sealing gaskets are in the joints of the pipes.

5. Install the Shampoo Inlet Hose onto the ports in the 1-2-3-4 order marked.

Optional: insert metering tips between the hose and the filter to fine-tune shampoo flow.

6. Connect the pipe to the shampoo/conditioner caps, put the filter end into the bottle, and screw the cap tight on the shampoo/conditioner bottle. Clean the filter depending on the amount of hair that gets caught in it.
7. After installation, rotate the dilution handles above the shampoo ports clockwise and turn on the water supply to check for any leaks. If the shampoo can be sucked into the hoses rapidly, the unit is ready to use.

Operation Instructions:

Before use, confirm the function knob is on OFF position.

1. Turn the dilution valve lever to select the preferred dilution ratio.

Note: It is suggested that you start with dilution handle of lower density. If you feel that you are not getting a good clean bath, you might wish to rotate the handle to a greater angle for higher density. For lower foam or to use less shampoo, rotate the handle to a smaller angle for lower density.

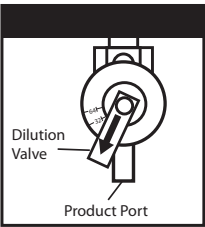

Figure 1

2. Turn on the water supply, rotate the function knob to RINSE as shown in Figure 2, until the coat is soaked and then turn to OFF position.
3. Turn the shampoo source knob to 1, 2, 3 or 4 to choose the product, as shown in Figure 3.
4. Turn the function knob to BATHE, as shown in Figure 4, and adjust the sprayer to the desired flow setting. Hold the sprayer to soak the coat of the pet with dilution and then close the sprayer.
5. Massage shampoo into the coat until enough foams are seen.
6. Turn the function knob to RINSE, as shown in Figure 5 and rinse the pet thoroughly.
7. After bathing pet, turn the function knob to OFF and turn the shampoo source knob to neutral position, as shown in Figure 6. Turn the dilution valves to OFF.

CARE INSTRUCTIONS

1. Keep the surface clean and dry, and use a dry and soft cloth to clean the surface.
2. Wet cloth with neutral detergent and wipe to remove stubborn stains and dirt.
3. Use only mild neutral detergent.
4. Clean Metering Tips frequently. If blocked, remove and flush with water to clean.

LIMITED WARRANTY

This Master Equipment® ProBather II Bathing System is warranted against defective material or workmanship for one year from the date of purchase. Any Master Equipment® product that is determined to be defective in material or workmanship during the warranty period will be replaced without cost to the purchaser for parts or labor. Please contact Boss Pet Products Customer Service at 1-800-638-5754 regarding any defective product. Boss Pet Products will not be liable under this warranty for any defect, failure or malfunction of this product caused by normal wear, abuse, misuse, unauthorized adjustments or repairs. Boss Pet Products will not be liable for any incidental or consequential damages of any type. Any implied warranty is limited to the one-year period provided in this express warranty. Some states do not allow limitations on how long an implied warranty lasts or exclusion or limitation of incidental or consequential damages, so the above limitations or exclusions may not apply to you. Warranty is void if product has been modified in any manner, repaired by anyone other than Boss Pet Products or has been subject to unreasonable use. Warranty is valid in the United States.
