

TP6288 44 • Master Equipment® Foldable LED Grooming Arm Specifications

LED Grooming Arm Specs:

• Input voltage: 100-240V~

• Power consumption: < 20W

Color temperature: 3000K-6000K

Luminance: 305LM-340LM

- Material of the arm shell: SUS304 stainless steel
- Spiral cable inside the tube: a static length of 25-30mm and a stretchable length of 1.3m
- Transformer: DC24V,1.1A
- Magnet dimension: 50×30×5-M6 (screw hole)
- Magnetic energy product of the Magnet: 1.18-1.21 KJ/m3
- Intrinsic coercivity of the Magnet: 965KA/m
- · Coercivity of the Magnet: 915KA/m
- Curie temperature of the Magnet: 80°C
- Remanence of the Magnet: 1.21T
- Transmission and reception frequency of LED remote controller: 433.92Mhz
