Sightseer II Pet Car Seat

1. Remove all pieces from the carrying bag.

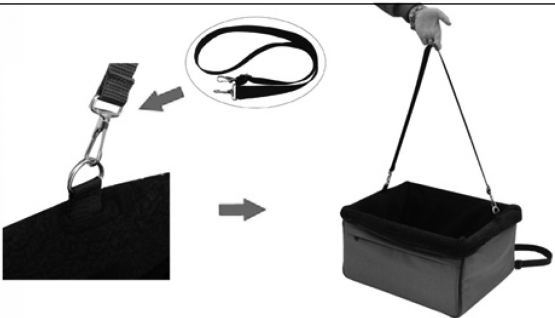

2. Pop open the seat to form a box-shape.

3. Hold the interior collar clip on the side of the seat to keep it accessible when you insert the included board mat. To insert the mat, open it into a "U" shape and place it into the seat, making sure the Velcro® attaches to the bottom and the left and right sides to retain its shape.

4. Attach the Sherpa lining to the car seat, using the Velcro® tabs. Make sure to feed the D-rings through the slots in the Sherpa lining so they don't become lost under the lining.

5. Connect the carrying strap to the car seat by clipping the strap to the D-ring on each side of the top.

6. Connect the back strap to the car seat by clipping the strap to the D-ring on each side of the back panel.

7. Attach the car seat to your vehicle's front seat by draping the carrying strap over the seat headrest and clipping the other strap around the back of the car seat.
